

Dear Friends,

With the 50th NEWSLETTER of the International Extranodal Lymphoma Study Group, we are very proud to inform you that three new papers on the role of PET in PMBCL have recently been published by the IELSG and we want to thank all of you who contributed to these achievements. Our contribution to a better management of PMLBCL is now focused on the IELSG-37, which is ongoing. We need the contribution and the commitment of all of you to successfully complete the accrual.

i. Hematological Oncology

Training improves the interobserver agreement of the expert positron emission tomography review panel in primary mediastinal B-cell lymphoma: interim analysis in the ongoing International Extranodal Lymphoma Study Group-37 study.

Ceriani L, Barrington S, Biggi A, Malkowski B, Metser U, Versari A, Martelli M, Davies A, Johnson PW, Zucca E, Chauvie S.

Epub ahead of print August 22 2016. doi: 10.1002/hon.2339.
